

Restful Drama

Designed by Knotting Hill Interiors

Inviting and tranquil, Knotting Hill Interiors created a bedroom layered in interest and luxurious ambiance for a client's second home.

Original European artwork and antique furnishings were layered with accents including a hand-carved mirror to create a luxurious look. Window treatments in a print reminiscent of historical documents pick up on the tones of mint, chocolate and cream used throughout the room to create a restful retreat. Mirrored candlesticks reflect light and provide a bold counterpoint to the color scheme.

The hand-carved bed is a masterpiece with luxurious fabric upholstery. Custom-made layers of Egyptian cotton sheets, a coverlet, bed skirt, bedspread and duvet top the double, pillow-top mattress. Hand-sewn pearls accent the overlay of the bedspread while myriad pillows, some made of antique tapestry, add interest to this luxurious ocean of fabrics.
